## HARWOOD HALL

### PINOT NOIR

2012

#### Grape Varietals

100% Pinot Noir

#### ABV

13.5%

#### Vinification

Grown on vineyards from several different sites across Central Otago the fruit was selected to give a blend of bright lifted fruit with a soft structured palate of moderate length. The wine was vinified in small fermenters with indigenous fermentation. Then pressed off and aged in new and seasoned French oak barrels for a period of ten months.

#### History

Established in 2008, Harwood Hall is the result of a collaboration between two friends and former colleagues: Digger Hennessey and Corey Hall. Digger and Corey first met in 1996 and later went on to be chief winemakers at Mt Riley and Matua respectively. Pooling their resources, including Digger's vineyard and Corey's 'Gem' wine business, their aim was -and remains- to produce top quality New Zealand wines that are also affordable and approachable.

#### Tasting Notes

Dark cherries and blackberries with a layer of raspberry and strawberry around the edges of the palate. The fruit is well supported with a little toast, spice and dried herb in the background. The soft full palate shows good structure and length with dark berries on the finish. This wine should age gracefully for a minimum of five years.
